

Global Knowledge Delivered Locally with CoreNet Global CoRE Curriculum

Quality programming from CoreNet Global is now available to you at the local level through CoRE Curriculum. This program offers timely and relevant topics for corporate real estate and workplace infrastructure professionals, developed from the highest rated CoreNet Global Summit and Executive Development Program seminars.

With an average approval rating of 90% for both speakers and programs, every professional — at every level — will benefit from CoRE Curriculum.

“My company and the financial services industry continue to look at cutting-edge research in relation to the changing nature of work and the workplace. The CoRE Curriculum program not only gave me that, but also provided an actual case study from a GSA representative. Both the quality of the program and the speaker were outstanding. I’m looking forward to attending more CoreNet Global learning programs here at the local level.”

Kathy Winkler, VP Corporate Real Estate, The Prudential Insurance Company

CoRE Curriculum provides top presenters, giving you the opportunity to interact with the best in the profession right in your backyard. And, CoRE Curriculum offers continuing professional development (CPD) renewal credits for all workshops to support MCR designees.

Ask your chapter officer about CoRE Curriculum programs. Participating chapters are reinvesting in CoreNet Global so that it can continue serving you as the premier learning organization for corporate real estate and workplace infrastructure. This, in turn, ensures quality global programs at the local level. If your chapter is not a member, encourage them to learn more about the program.
