

## WHY BECOME A CANDIDATE?

As the world's preeminent thought and opinion leader in corporate real estate, CoreNet Global offers members its exclusive Executive Development Programs which focus on building essential skills for those positioning themselves for a greater role in their organization.

**Master of Corporate Real Estate** – A professional designation focused on the strategic management of corporate real estate

**Senior Leader of Corporate Real Estate** – A certificate program focused on the development of essential leadership skills needed to drive strategies that create value

If you plan to earn the MCR designation or the SLCR certificate you must declare candidacy. Individuals who plan to complete either series demonstrate a commitment to their profession. The MCR and SLCR next to your name communicates professional competence and a high level of industry knowledge to your management and to your peers.

### Candidate Benefits

In addition to the educational value, there are other benefits to becoming a candidate in the SLCR and MCR programs. You are given priority admittance to seminars, receive a US \$50 discount on all EDP seminars, and gain immediate access to the network of professional colleagues who are currently working toward the same goals. Plus, as a candidate, the Executive Development Program's staff will work closely with you to provide continuous as-needed support on meeting your professional development goals.

### Declaring Candidacy

You may declare candidacy prior to taking your first seminar in these Series, or at any time prior to Series completion. (Please note the US \$50 discount on all seminars applies once you are a candidate). Program requirements for all Series are outlined on the web at [www.corenetglobal.org](http://www.corenetglobal.org). Also you may apply for candidacy on line or request a pdf form from staff.
