

**Dr Geoff Nesbitt - Innovation & Research Manager,
Shell Technology India**

Geoff has a PhD in Physical Chemistry from Durham University (UK). Geoff has worked as an industrial research scientist and technology manager for several multi-national corporations, in a variety of countries, cultures, and environments. Since January 2006 Geoff has been responsible for helping set up Shell Technology India, and establishing the Innovation and Research department.

Geoff lives in Bangalore with partner, two daughters, and a rather large wooly dog.
